

Quickstart Guide

- 1 Download the Newshosting newsreader from your [account portal](#).

Download the Newshosting Newsreader

Start using the Newshosting newsreader today.

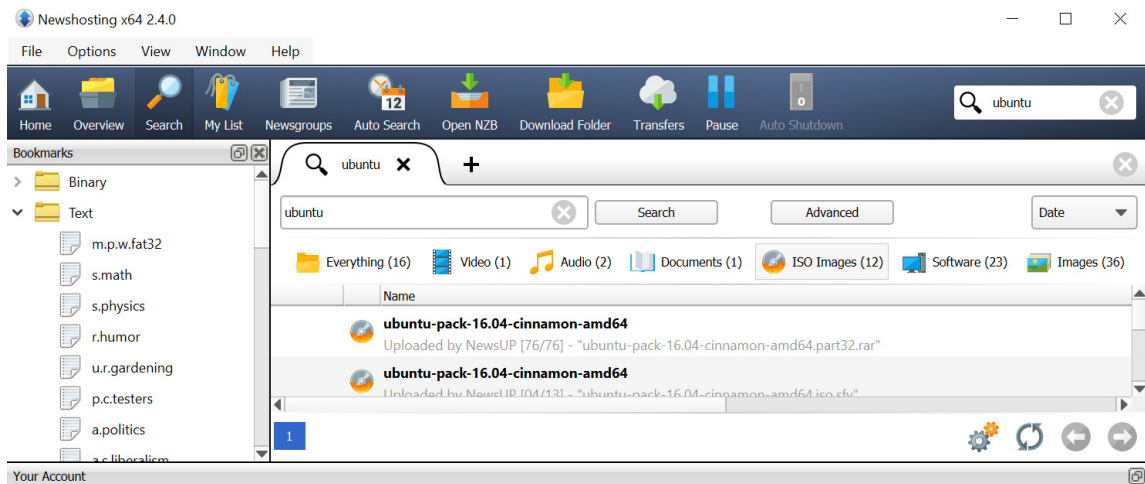

- 2 Enter the username/email and password from the Newshosting welcome email. If you have any difficulty, you may reset the password [here](#).

Login

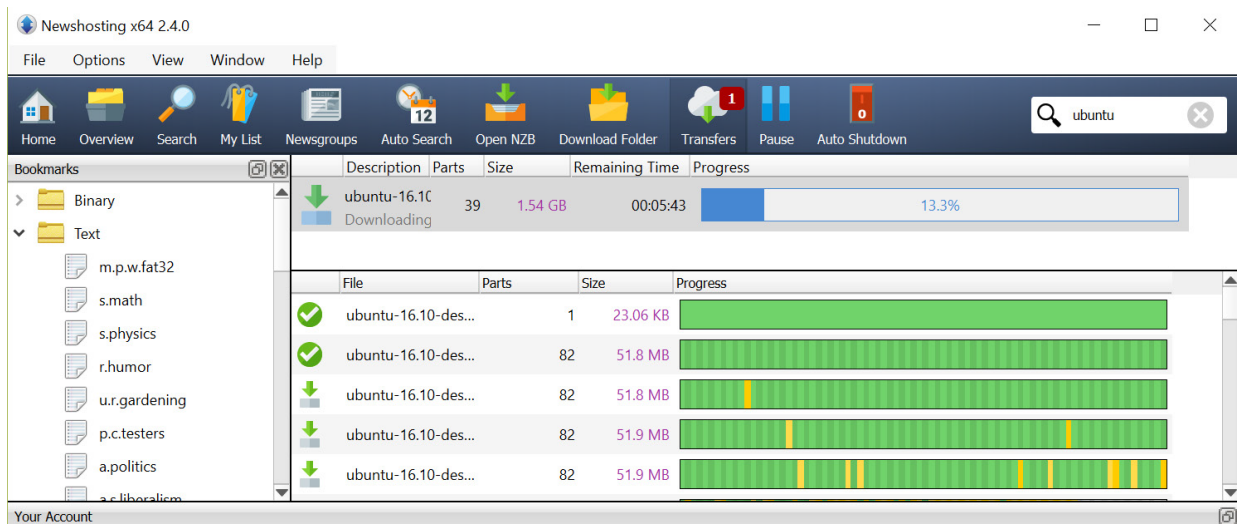

3

Perform a test search in your Newshosting newsreader by using the search prompt in the upper right corner.

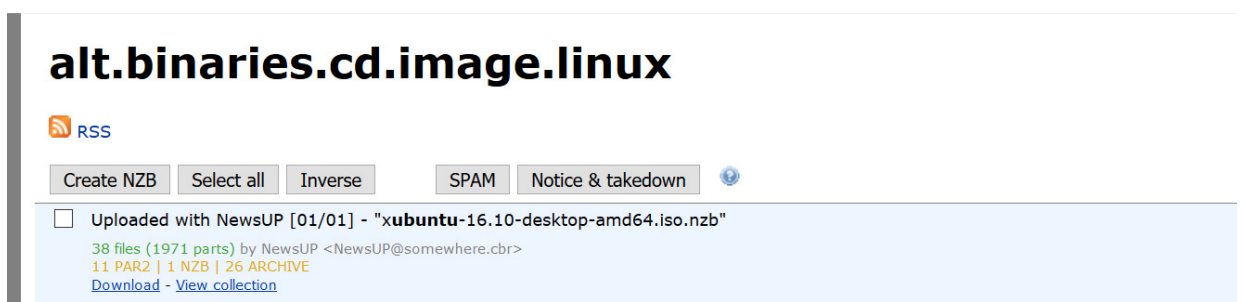

4

Download a binary by double clicking on the desired search result.

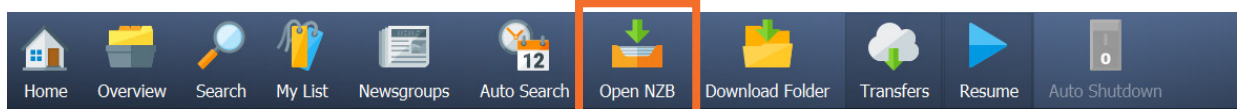

5

Explore the web for NZB search options (such as binsearch.info or nzbindex.nl) and download an NZB file.

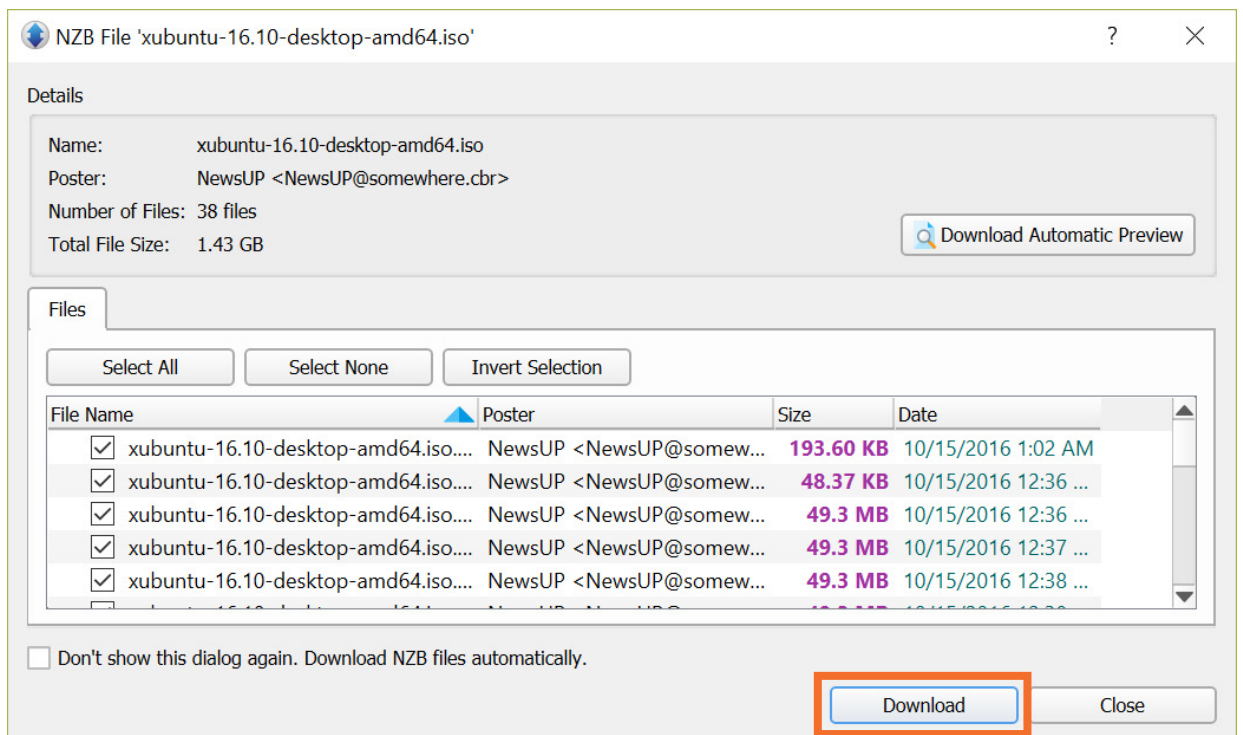

6

Open the NZB by selecting Open NZB from the top menu or dragging the file into your newsreader.

7

Confirm the prompt to start your download.

8

The newsreader will automatically repair (if required) and unpack the binaries to your download folder.
